**RE: To whom it may concern**  
**Testimonial: Elior Konsultante Pty Ltd Implementation of ISO3834**  
**Management System for TLIU Beneficiary Companies**

The Technology Localisation Implementation Unit (TLIU) is an initiative of the Department of Science and Innovation (DSI) hosted at the Council for Scientific and Industrial Research (CSIR). TLIU is mandated to implement the Technology Localisation Plan (TLP) of the Department. DSI realised that technological upgrading or support is most often the key intervention required to improve the competitiveness of a firm, or to enable the firm to achieve the levels of quality, time and cost required by the OEM, or by the SOC. TLIU complement the Department of Trade and Industry (the dti) designation programme of public procurement through (PPPFA) to include local content while supporting Competitive Supplier Development Programme (CSDP) of various State Owned Entities (SOE's).

Elior Konsultante Pty Ltd was appointed by the CSIR-TLIU through a competitive bidding process (CSIR RFP No.: 3199/05/06/2018) to provide technical consultation and implementation support to TLIU beneficiary companies. Elior Konsultante has been highly professional and knowledgeable in their welding and quality assurance assistance to small and medium companies on the programme. The companies who completed the programme were later independently audited for technical competency by South African Institute of Welding (SAIW) and received their certificates. Elior Konsultante also specialises in implementation of ISO9001:2015 management system and other technical industrial standards such as European Union (EU) Pressure Equipment Directives (PED), PER (SANS347), RBI, etc. TLIU is grateful and appreciate the mutual and contractual relationship with Elior Konsultante Pty Ltd and recommends them as a professional business partner with value for money.

Please direct all queries and questions that you might have regarding this communication to the TLIU, Mr. Ally Vusi Mahlangu, amahlangu3@csir.co.za, 012 842 7336.

Warm Regards,

ALLY VUSI MAHLANGU
